Summary

Full Stack Developer with over 3 years of experience building scalable web applications using React.js, Next.js and Node.js. Skilled in developing REST APIs, real-time systems using WebSockets, authentication using JWT and deploying production applications on cloud platforms. Experienced working in Agile teams and delivering performant frontend and backend solutions.

Skills

- **Languages:** JavaScript, SQL, HTML5, CSS3
- **Frontend:** React.js, Next.js, Redux, Tailwind
- **Backend:** Node.js, Express.js, LoopBack, WebSockets (Socket.IO)
- **Databases:** MongoDB, MySQL, PostgreSQL
- **Tools:** Git, GitHub, Jira, Postman
- **Cloud:** AWS (basic), GCP, Vercel, Render
- **Testing:** Jest, React Testing Library
- **Concepts:** REST APIs, JWT Auth, RBAC, CI/CD

Experience

Autobit Software Services Pvt. Ltd. — Noida Mar 2026 – Present *Frontend Developer*

Tech: React.js, JavaScript (ES6+), REST APIs, WebSockets (Socket.IO)

- Developed reusable and responsive UI components using React.js to standardize frontend architecture and improve maintainability.
- Integrated REST APIs into React.js applications and optimized rendering using React Hooks to enhance UI performance.
- Collaborated with backend and QA teams during Agile sprints to deliver stable and production-ready releases.
- Implemented WebSockets (Socket.IO) to enable real-time stock data updates in the trading dashboard improving user responsiveness.

GLA University — Software Development Cell Sep 2025 – Dec 2025 *Full Stack Developer*

Tech: React.js, Next.js, Node.js, LoopBack, MySQL, WebSockets (Socket.IO)

- Developed LMS discussion forum module using React.js, Next.js and Node.js enabling interactive student discussions.
- Designed secure REST APIs with JWT authentication and RBAC ensuring controlled access to forum resources.
- Optimized backend performance by implementing pagination and efficient SQL queries improving API response time by 40%.

Coding Blocks — Full Stack Developer Apprentice Sep 2024 – Aug 2025 *MERN Training + Client Projects(Freelance / Practice Applications)*

Tech: MERN Stack, MongoDB, Express.js, React.js, Node.js

- Built full stack web applications using the MERN stack including authentication modules and REST APIs.
- Deployed and managed applications on Vercel, Netlify and Render enabling cloud-based production deployments.

Yogprideal — Delhi Jul 2023 – May 2024 *Technical Support Engineer*

Tech: JavaScript, REST APIs, SQL

- Diagnosed and resolved frontend and API production issues improving overall system stability and user experience.
- Optimized backend SQL queries and API endpoints reducing response latency and improving performance.

Polestar Solutions and Services — Noida Mar 2022 – Jun 2023 *Full Stack Developer*

Tech: React.js, Node.js, REST APIs, MongoDB

- Developed full stack features using React.js and Node.js supporting scalable web application functionality.
- Implemented JWT-based authentication and secure REST APIs improving application security and access control.

Engineering Projects

E-commerce Platform — Node.js, Express.js, MongoDB

- Built role-based e-commerce backend with secure REST APIs and JWT authentication.

Anaplan Utility Tool — React.js, Node.js

- Developed an internal tool simplifying enterprise data workflow automation.

Power BI 2.0 – Data Reconciliation Platform — SQL, Power BI

- Performed manual SQL data validation and reconciliation testing to ensure accuracy of Power BI dashboards.

Education

B.Tech Information Technology — Maharaja Surajmal Institute of Technology 2019 – 2022

Diploma Electronics and Communication — Aditya Institute of Technology 2016 – 2019

Certifications

Full Stack Web Development (MERN) — Coding Blocks 2024 – 2025
