Summary — Full Stack Developer with 2+ years of experience delivering scalable, secure web applications using React.js, Next.js, Node.js, and SQL/NoSQL databases. Strong expertise in JavaScript, REST API design, authentication, and performance optimization with proven impact on enterprise platforms. Experienced in Agile delivery, cloud deployments, and building production-ready solutions across service-based and startup environments.

Skills

- **Languages:** JavaScript (ES6+), SQL, HTML5, CSS3
- **Frontend:** React.js, Next.js, Redux, Context API, Tailwind CSS, Bootstrap
- **Backend:** Node.js, Express.js, LoopBack, REST APIs, GraphQL
- **Databases:** MySQL, PostgreSQL, MongoDB
- **Testing:** Unit Testing, Postman, Jest, React Testing Library
- **Cloud & Tools:** AWS (EC2, S3 – basic), Git, GitHub, Jira, GCP, Vercel, Render, Netlify, MongoDB Atlas
- **Concepts:** Agile development, JWT authentication, role-based access, CI/CD, performance optimization

Experience

GLA University — Software Development Cell (Greater Noida Campus)

Sep 2025 – Present

Full Stack Developer

- Designed and delivered a production-ready Discussion Forum module for the LMS using React.js, Next.js, Node.js (LoopBack), and MySQL.
- Built secure REST APIs with JWT authentication, role-based access control, soft deletes, and audit logging.
- Implemented server-side pagination, filtering, and search, improving API response time by 40%.

Yogprideal — Delhi

Jul 2023 – May 2024

Technical Support Engineer

- Resolved frontend and API-level production issues, improving system stability and user experience.
- Optimized backend queries and endpoints to reduce response latency.

Polestar Solutions and Services — Noida

Mar 2022 – Jun 2023

Full Stack Developer

- Developed full stack features using React.js and Node.js for enterprise applications.
- Implemented JWT-based authentication to secure sensitive business data.
- Improved application performance using lazy loading and code splitting.

Key Projects

E-commerce Platform – Node.js, Express.js, EJS, MongoDB

- Built a role-based e-commerce platform with JWT authentication and secure REST APIs.
- Implemented validation and centralized error handling to ensure data integrity.

Portfolio Website – React.js, Tailwind CSS

- Developed a responsive, SEO-optimized single-page application using React.js.

Anaplan Utility Tool – React.js, Node.js, REST APIs, Anaplan

- Built a plug-and-play integration utility, reducing setup effort and backend load.

Power BI 2.0 – Data reconciliation, SQL, Power BI (Client: EXL)

- Automated data reconciliation workflows using SQL to improve reporting accuracy.

Education

Maharaja Surajmal Institute of Technology

2019 – 2022

Bachelor of Technology in Information Technology

CGPA: 8.35 / 10

Aditya Institute of Technology

2016 – 2019

Diploma in Electronics and Communication Engineering

CGPA: 7.6 / 10

Certifications

Full Stack Web Development (MERN) – Coding Blocks

Sep 2024 – Feb 2025
